

VyaparSarathi

Detailed Project Report

Structured decision-support report (bank / official hand-off)

Proposed business	sports equipment store [user-stated] — stated as "I want to open a sports equipment store"
Location	Action Area II, New Town, Kolkata Metropolitan Area, Rajarhat, North 24 Parganas, West Bengal, 700161, India [user-stated] — stated as "Action Area II, New Town, Kolkata Metropolitan Area, Rajarhat, North 24 Parganas, West Bengal, 700161, India"
Report ID	DPR-C44B5899EBC2A08C
Generated	11 September 2026, 10:44 UTC
Session	telegram:1897062515

Disclaimer

This is decision-support material prepared before capital is committed. It is NOT a loan sanction, an approval, a guarantee of viability, or financial advice of record. Every figure is either stated by the entrepreneur (and unverified), retrieved from a cited official document, produced by a deterministic calculation from named inputs, or an explicitly labelled assumption. Where an input or a piece of evidence is absent, the report says so rather than substituting a default. A bank or scheme authority's own appraisal and the official scheme rules remain authoritative.

Executive summary

Recommendation	Insufficient evidence [calculated]
Reason	Not enough market or financial evidence was available to make a call yet.
Market-data confidence	68% [calculated]
Financial status	Feasible [calculated]

Major strengths

- The plan clears financing, debt service and stress tests.

Major risks

- This is a comparison of options and a financial screen, not a prediction of success. It does not replace a bank's own credit appraisal or a scheme's eligibility rules (CLAUDE.md §1, §32).

Immediate next actions

- Take this report to a bank business-correspondent agent or the block office to begin scheme appraisal — the bank's own credit assessment remains authoritative.

Open evidence gaps

- Entrepreneur and project profile: Years of relevant experience — Not available from current evidence
- Entrepreneur and project profile: Standardised category — Not available from current evidence — the stated business could not be mapped to one internal category
- Local market assessment: Nearest competitor — Not available from current evidence
- Opportunity and alternatives: Proposed-business opportunity score — Not available from current evidence — no specific business was proposed
- Opportunity and alternatives: Recommended pivot — Not available from current evidence — no alternative scored materially higher than the proposed business
- Project and operating plan: Business category — Not available from current evidence
- Financial assessment: Minimum cash — Not available from current evidence
- Financial assessment: Average DSCR — Not available from current evidence
- Scheme, compliance, and knowledge evidence: interest_rate_pct — Not available from current evidence — resolution status: no_evidence
- Scheme, compliance, and knowledge evidence: loan_tenure_months — Not available from current evidence — resolution status: no_evidence
- Scheme, compliance, and knowledge evidence: moratorium_months — Not available from current evidence — resolution status: no_evidence
- Scheme, compliance, and knowledge evidence: promoter_margin_pct — Not available from current evidence — resolution status: conditions_unresolved

Entrepreneur and project profile

Available Margin Capital	■10,00,000 (about ■10 lakh) [user-stated] — stated as "and I have 10 lakh"
Proposed enterprise	sports equipment store [user-stated] — stated as "I want to open a sports equipment store"
Standardised category	Not available from current evidence [not available] — the stated business could not be mapped to one internal category
Years of experience	Not available from current evidence [not available]
Trade experience	None stated

Owned assets (stated, unverified)

- storefront: owned (stated)
- vehicle: owned (stated)

Everything in this section was stated by the entrepreneur and has not been independently verified. It is carried through the analysis as declared.

Local market assessment

Resolved location	Action Area II, New Town, Kolkata Metropolitan Area, Rajarhat, North 24 Parganas, West Bengal, 700161, India ^[calculated] — geocoded from the stated location text
Market-data confidence	75% ^[calculated] — how completely the local market could be observed; NOT a viability measure
Direct competitors	0 ^[calculated]
Adjacent competitors	0 ^[calculated]
Nearest competitor	Not available from current evidence ^[not available]
Competition signal	None ^[calculated]
Market reading	Insufficient evidence ^[calculated] — a market-state description, not an action
Reading basis	Phase 2A could not map the proposed business to a category; clarify the business type.

Administrative hierarchy

Level	Value
Village / town	New Town
Block / tehsil	Rajarhat
District	North 24 Parganas
State	West Bengal

Source coverage

Source	Detail
osm	37 raw, 37 normalised, 0 dropped (no coords); endpoint https://overpass-api.de/api/interpreter
De-duplication	37 before, 37 after, 0 merged

Demand signals

Signal	Value	Origin
Settlements in catchment	27 (0 with population)	sourced
Public-service activity points	112 across 4 kind(s)	sourced
Demand-data confidence	68%	calculated

Data caveats

- This is a market-state reading, not a recommendation. It does not say whether to open the business, and it does not compare alternatives.
- Catchment scale is a count of residents / settlements, not a measure of purchasing power, footfall, or willingness to buy.
- Confidence here measures how well the local market is observed, not whether the business will succeed. Low confidence never worsens the label.
- Competition reflects only businesses the configured sources listed; absence from the data is not proof of absence on the ground.

The nearby-business data is a partial, sourced sample (primarily OpenStreetMap, whose rural coverage is uneven), never the complete set of businesses in the area. Absence of a competitor in the data does not prove the business does not exist. Read every competitor count together with the source-coverage confidence beside it.

Opportunity and alternatives

Proposed-business score	Not available from current evidence [not available] — no specific business was proposed
Stance	No proposal to compare [calculated]
Stance reason	No specific business was proposed; the shortlist is ranked for consideration only.
Recommended pivot	Not available from current evidence [not available] — no alternative scored materially higher than the proposed business
Market-data confidence	68% [calculated]

Alternative businesses scored for this location & profile

Rank	Business	Score	Market reading	Capital fit	Reasons
1	agri_input	85/100 [calculated]	Underserved	Affordable	Phase 2D market label is 'underserved' (decided at ladder rung 'matrix') -> 85/100.; Asset fit for 'agri_input': you own essential asset(s): storefront; you own helpful asset(s): vehicle -> 85/100.; No trade experience recorded; experience fit was not scored.
2	dairy	79/100 [calculated]	Underserved	Affordable	Phase 2D market label is 'underserved' (decided at ladder rung 'matrix') -> 85/100.; Asset fit for 'dairy': you own essential asset(s): storefront; missing essential asset(s): cold_storage; you own helpful asset(s): vehicle -> 65/100.; No trade experience recorded; experience fit was not scored.
3	pharmacy	72/100 [calculated]	Mixed	Stretch	Phase 2D market label is 'mixed' (decided at ladder rung 'matrix') -> 60/100.; Asset fit for 'pharmacy': you own essential asset(s): storefront -> 100/100.; No trade experience recorded; experience fit was not scored.
4	livestock_services	53/100 [calculated]	Insufficient evidence	Affordable	Phase 2D market label is 'insufficient_evidence' (decided at ladder rung 'absence_not_evidence') -> 40/100.; Asset fit for 'livestock_services': you own helpful asset(s): storefront, vehicle -> 85/100.; No trade experience recorded; experience fit was not scored.
5	food_processing	51/100 [calculated]	Mixed	Stretch	Phase 2D market label is 'mixed' (decided at ladder rung 'matrix') -> 60/100.; Asset fit for 'food_processing': missing essential asset(s): equipment, warehouse; you own helpful asset(s): storefront -> 30/100.; No trade experience recorded; experience fit was not scored.

Caveats

- The candidate list is an MVP recommendation universe for rural micro-retail, not an exhaustive list of businesses that could work here. A business you named is always scored even if it is outside this list.

- Assets you already own can reduce what a project needs to spend. They do NOT count as promoter margin — margin is set by scheme rules and is decided at a later (financing) stage.
- The capital check is an indicative screen based on typical capital intensity, not a financial assessment. It does not mean a business is unaffordable, ineligible or impossible — detailed capital needs and financing come from the financial analysis stage.
- This analysis ranks options against each other on partial local evidence. It does not predict whether any business will succeed, and it computes no revenue, loan, EMI or repayment figure.
- A higher score alone is never a recommendation: an alternative is only called materially better when its market evidence is stronger AND sufficient AND its capital fit is resolved.

Project and operating plan

Business category	Not available from current evidence [not available]
Catchment radius used	5,000 m [assumed]
One-time project / setup cost	■7,50,000 (about ■7.5 lakh) [user-stated] — stated as "7.5 lakh"
Expected monthly revenue	■75,000 [user-stated] — stated as "75k"
Cost of goods (% of revenue)	60.0% [user-stated] — stated as "60 percent"
Monthly fixed operating cost	■10,000 [user-stated] — stated as "10k"

Only business and project information the entrepreneur actually stated is shown. No technical specification, layout, machinery list, or manpower plan is inferred — that detail is gathered separately during scheme appraisal.

Financial assessment

Feasibility & structure

Feasibility status	Feasible [calculated]
Deciding rung	clears_all
Project cost	■8,07,500 [calculated]
Promoter cash contribution	■10,00,000 [declared config]
Required promoter margin	■80,750 [declared config]
Indicated loan	■7,26,750 [declared config]
Margin shortfall vs stated cash	■0 [calculated]
Financing structure	Term Loan [declared config]

Loan terms & servicing

Loan principal	■7,26,750 [declared config]
Interest rate	8% [declared config]
Tenure	84 months (7 years) [declared config]
Moratorium	6 months [declared config]
Monthly EMI	■11,327 [calculated]

Coverage & viability

Average annual DSCR	2.0015 [calculated]
First post-moratorium year DSCR	2.4734 [calculated]
Minimum cash balance	■9,39,250 [calculated] — in month 0
Cash on hand at EMI start	■10,30,180 [calculated] — EMI starts in month 7
Operating break-even month	1 [calculated]
Cash break-even month	0 [calculated]
Share of plan resting on assumptions	55.6% [calculated]

Stress scenarios

Scenario	Applied	Min cash	Negative months	Avg DSCR	Outcome
Revenue down 20	yes	■9,39,250 [calculated]	none	1.4011 [calculated]	Feasible
Revenue down 30	yes	■9,39,250 [calculated]	none	1.1009 [calculated]	Feasible
Margin down 300bps	yes	■9,39,250 [calculated]	none	1.7764 [calculated]	Feasible
Opex up 15	yes	■9,39,250 [calculated]	none	1.8514 [calculated]	Feasible
Ramp slower 2m	yes	■9,39,250 [calculated]	none	1.9500 [calculated]	Feasible
Lean season	no — no seasonality was supplied for this plan	Not available from current evidence [not available]	none	Not available from current evidence [not available]	—
Combined downside	yes	■9,34,655 [calculated]	none	1.1122 [calculated]	Feasible

Scheme, compliance, and knowledge evidence

Corpus: Corpus manifest v2 — 3 document(s), 14 chunk(s), 2 approved parameter row(s). This is a limited, incomplete corpus.

Requested: interest_rate_pct, loan_tenure_months, moratorium_months, promoter_margin_pct, loan_ceiling_inr, subsidy_pct, licence_fee_inr, security_deposit_months, gross_margin_pct, cogs_pct, inventory_days; state West Bengal

Resolved scheme parameters

[P1] 3 Quantum and Nature of Financial Assistance > 3.2 Subsidy — General Category, Urban [govt_primary]

“General Category: Rate of Subsidy is 15% of project cost in Urban areas.”

[P2] 3 Quantum and Nature of Financial Assistance > 3.2 Subsidy — General Category, Rural [govt_primary]

“General Category: Rate of Subsidy is 25% of project cost in Rural areas.”

[P3] MUDRA Loans: Categories and Loan Limits > 4 Tarun Plus category loan limit [govt_primary]

“Tarun Plus: Rs. 10 lakh and up to Rs. 20 lakhs, available to entrepreneurs who have previously availed and successfully repaid loans under the Tarun category. The finance minister announced an increase in the loan limit to Rs. 20 lakh during the Union Budget 2024-25 on July 23, 2024. This new limit took effect on October 24, 2024.”

[P4] 3 Quantum and Nature of Financial Assistance > 3.2 Subsidy — Special Category, Urban [govt_primary]

“Special Category (including SC/ST, OBC, Minorities, Women, Ex-Servicemen, Transgenders, Differently-abled, NER, Aspirational Districts, Hill and Border areas, as notified by the Government): Rate of Subsidy is 25% of project cost in Urban areas.”

[P5] 3 Quantum and Nature of Financial Assistance > 3.2 Subsidy — Special Category, Rural [govt_primary]

“Special Category (including SC/ST, OBC, Minorities, Women, Ex-Servicemen, Transgenders, Differently-abled, NER, Aspirational Districts, Hill and Border areas, as notified by the Government): Rate of Subsidy is 35% of project cost in Rural areas.”

No verified evidence for

- interest_rate_pct
- loan_tenure_months
- moratorium_months
- promoter_margin_pct
- subsidy_pct
- licence_fee_inr
- security_deposit_months

The promoter-margin percentage and loan-to-cost ratio shown under 'Financing structure' are the SIH26091 problem statement's own declared financing structure — configuration this deployment states, NOT a rule retrieved from a scheme document. They are never presented as an official scheme fact.

Risks and SWOT

Strengths

- The plan clears financing, debt service and stress tests. (finance.status)

Quadrant notes

- Weakness: No market concern, missing driver, or financial finding was surfaced.
- Opportunity: No higher-ranked local alternative or pivot was found.
- Threat: No stress scenario or named breaking point was available yet.

Structured risks

- This is a comparison of options and a financial screen, not a prediction of success. It does not replace a bank's own credit appraisal or a scheme's eligibility rules (CLAUDE.md §1, §32).

Data caveats

- How well the local market is OBSERVED (the weaker of the Phase 2B and Phase 2C data confidences, times a tier penalty), NOT whether the business will succeed (CLAUDE.md §22). It never changes the label.

Assumptions, limitations, and evidence confidence

User-provided inputs (unverified)

Item	Detail
Available Margin Capital (liquid cash)	■10,00,000 (about ■10 lakh)
Proposed enterprise (as stated)	sports equipment store
One-time project / setup cost (stated)	■7,50,000 (about ■7.5 lakh)

Required promoter margin	■80,750
Indicated loan	■7,26,750
Financing structure	Term Loan
Loan principal	■7,26,750
Interest rate	8%
Loan tenure	84 months (7 years)
Moratorium	6 months

Explicit assumptions

Item	Detail
Catchment radius used	5,000 m — No catchment radius was stated; using the MVP default.
finance: promoter_cash_contribution_inr	1000000 inr — No promoter contribution was separately stated; the entrepreneur's stated Available Margin Capital (liquid cash) is treated as the promoter's contribution under the declared SIH 10%/90% financing structure. State a contribution amount explicitly to override this.
finance: loan_principal_inr	726750.00 inr — SIH26091 problem statement's declared term-loan structure: project cost above Rs 1.40 lakh up to Rs 50 lakh, 90% funding up to Rs 45 lakh, 8% p.a., 7-year tenure, 6-month moratorium.
finance: loan_interest_rate_pct	8 percent_per_annum — SIH26091 problem statement's declared term-loan structure: project cost above Rs 1.40 lakh up to Rs 50 lakh, 90% funding up to Rs 45 lakh, 8% p.a., 7-year tenure, 6-month moratorium.
finance: loan_tenure_months	84 months — SIH26091 problem statement's declared term-loan structure: project cost above Rs 1.40 lakh up to Rs 50 lakh, 90% funding up to Rs 45 lakh, 8% p.a., 7-year tenure, 6-month moratorium.
finance: loan_moratorium_months	6 months — SIH26091 problem statement's declared term-loan structure: project cost above Rs 1.40 lakh up to Rs 50 lakh, 90% funding up to Rs 45 lakh, 8% p.a., 7-year tenure, 6-month moratorium.

Unavailable evidence

- Entrepreneur and project profile: Years of relevant experience — Not available from current evidence

- Entrepreneur and project profile: Standardised category — Not available from current evidence — the stated business could not be mapped to one internal category
- Local market assessment: Nearest competitor — Not available from current evidence
- Opportunity and alternatives: Proposed-business opportunity score — Not available from current evidence — no specific business was proposed
- Opportunity and alternatives: Recommended pivot — Not available from current evidence — no alternative scored materially higher than the proposed business
- Project and operating plan: Business category — Not available from current evidence
- Financial assessment: Minimum cash — Not available from current evidence
- Financial assessment: Average DSCR — Not available from current evidence
- Scheme, compliance, and knowledge evidence: interest_rate_pct — Not available from current evidence — resolution status: no_evidence
- Scheme, compliance, and knowledge evidence: loan_tenure_months — Not available from current evidence — resolution status: no_evidence
- Scheme, compliance, and knowledge evidence: moratorium_months — Not available from current evidence — resolution status: no_evidence
- Scheme, compliance, and knowledge evidence: promoter_margin_pct — Not available from current evidence — resolution status: conditions_unresolved
- Scheme, compliance, and knowledge evidence: subsidy_pct — Not available from current evidence — resolution status: no_evidence
- Scheme, compliance, and knowledge evidence: licence_fee_inr — Not available from current evidence — resolution status: no_evidence
- Scheme, compliance, and knowledge evidence: security_deposit_months — Not available from current evidence — resolution status: no_evidence
- Scheme evidence: no verified value for interest_rate_pct
- Scheme evidence: no verified value for loan_tenure_months
- Scheme evidence: no verified value for moratorium_months
- Scheme evidence: no verified value for promoter_margin_pct
- Scheme evidence: no verified value for subsidy_pct
- Scheme evidence: no verified value for licence_fee_inr
- Scheme evidence: no verified value for security_deposit_months

Confidence notes

- This report was assembled and rendered deterministically from stored structured results. No language model drafted, summarised, or rewrote any section.
- Market-data confidence measures only how well the local market could be OBSERVED here. It is a separate measurement from financial feasibility: a plan can be financially sound with low market-data confidence, or financially weak with high confidence. Neither figure is multiplied into the other.
- How well the local market is OBSERVED here (the Phase 2C demand-data coverage; each candidate also carries its own competition-side coverage confidence). NOT a viability or success measure, and it never changes a score or the ranking (CLAUDE.md §22).
- How much of this plan rests on configured assumptions rather than stated or sourced facts. NOT a probability of success and NOT a measure of the business (CLAUDE.md §22).

D. Glossary

Term	Definition
Available Margin Capital	The liquid cash the entrepreneur can put into the project. Physical assets are not counted here (CLAUDE.md §13).
Promoter margin / contribution	The share of the project cost the borrower must fund themselves. A scheme states its own required percentage; whether an asset counts toward it is a scheme rule.
EMI	Equated Monthly Instalment — the fixed monthly loan repayment after any moratorium, covering interest and principal on a reducing balance.
Moratorium	An initial period during which principal repayment (and sometimes interest) is deferred. Operating costs still run during it.
DSCR	Debt-Service Coverage Ratio = cash available for debt service ÷ debt due in the same period. Above ~1.25 is generally considered comfortable. Computed on a cash basis here (no depreciation add-back, no tax).
Break-even	The monthly revenue, or the month, at which the business first covers its costs (operating break-even) or its costs plus loan servicing (break-even incl. debt).
Working capital	Cash tied up in day-to-day operations — inventory and receivables, net of supplier credit — plus a cushion for the ramp-up months.
Catchment	The area a business can realistically draw customers from. Here it is a fixed-radius approximation; travel-time catchments are a later enhancement.
Market-data confidence	How completely the local market could be observed from available sources. Not a probability of success.
Opportunity score	A 0–100 comparison of candidate businesses for this location and profile. A ranking aid, not a prediction of profit.
